Application for Annexation

Single Family Residential - One Connection/Lot Split

Applicant Information

| | |
|-----------------|--|
| Name | |
| Phone | |
| Email | |
| Mailing Address | |

Property Information

| | |
|-----------------|--|
| Owner | |
| Phone | |
| Email | |
| Project Address | |
| Parcel Number | |

Connection Request

| | | | |
|---|-----|----|--------------|
| Is this request for connections related to a lot split/rezoning request? | Yes | No | I don't know |
| Has the lot split/rezoning been approved by Coconino County? | Yes | No | I don't know |
| Does the new lot currently have connections associated with it? | Yes | No | I don't know |
| Is this request for a single family residential connection? | Yes | No | I don't know |
| If this request is for a multi-family, commercial, or multiple connections, please use KVID's other application | | | |

Plan Review

If you have a site plan please include a copy with this application

I would like the utility to review plans for the proposed project (\$35 fee applies) Yes No

Project Description (please provide a brief overview of your project):

Application Fees

| Application Type | Fee |
|---|------|
| Plan Review | \$35 |
| One Single Family Residential Connection (Not part of the original plat) | \$50 |

For KVID Use Only

| | | | |
|-----------------------------|-----|----|--------------|
| Date and Time Received | | | App Fees |
| Original Plat Address | | | Paid |
| Service ID | | | Notified |
| Part of the original plat? | Yes | No | Picked Up By |
| Previous lot split/combine? | Yes | No | |

Kachina Village Improvement District Application for Annexation Information

What to expect next...

KVID staff will review your Application for Annexation and notify you of the next steps. We find that many requests for service have their own set of circumstances, costs, and challenges, so it is important that KVID staff have time to research your request to provide you with the best information and a path to move forward with your project. Below are common practices and fees to give you an idea of our process.

- Some lots currently do not have rights to connect to the water and sewer system. These lots will require approval from KVID's Board of Directors. Such approvals may take as long as 90 days to complete and will not be scheduled until the necessary fees are paid to KVID.
 - If you do not have connection rights for your property, you will be required to pay a \$7,508 Infrastructure Impact Fee for each requested Single Family Residential Connection. Multi-Family Residential and Commercial connection fees are based on the size of the meter requested. This is in addition to any costs associated with installing your new connection(s).
 - Installation and activation of new connection(s) can vary based on the infrastructure needed to provide the connection. Typically, this can be done within 6 weeks after Board approval, but times may vary based on the scope of work, availability of contractors, weather, KVID commitments, or other factors. KVID staff will estimate the timeline for installation and activation of new connections once we are scheduled to move forward with your Board approvals.
 - Costs for installation of infrastructure for lots that do not have existing service connections is passed through to the owner. If KVID already has the needed infrastructure in the street, a Single Family Residential connection can often be installed for approximately \$6,000. Note that this can vary from project to project and the actual cost of installation will be borne by the owner. Multi-Family and Commercial connections will be addressed on a case-by-case basis
- Lots that have connection rights and already have service connections installed, will need to pay a connection fee of \$2424 for installation of the water meter and access to the sewer lateral. Typically only lots that were part of KVID's original plat fall into this category.
- All lot splits and/or rezoning approvals are handled by Coconino County. Applications for Annexation that involve lot splits or rezoning requests will not move forward unless the customer provides proof of the lot split or rezoning approval from Coconino County.
- If your project requires design review, engineering consultation, ADEQ approval, permitting, legal services, inspection, construction oversight, or other needed services, KVID will pass these costs on to the owner. For large projects, KVID will require upfront payment to accommodate pre-project expenses.
- All accounts are required to pay a minimum of \$180 in deposits and fees to KVID before service is activated at the property. This requires that the property owner sign up for service and assume responsibility for the utility bill.
